

LeafBlaster™

Eliminate Gutter Cleaning Forever!

- Keeps out leaves, pine needles and small sand grit from your gutters!
- Eliminates gutter cleaning forever!
- Fits on virtually any existing gutter and roof type!
- Great for rain harvesting!
- Your gutters will never clog!
- Handles over 150 inches of hourly rainfall!
- Translucent appearance makes it blend in with the color of your roof!
- **LOW COST** gutter protection system!
- Patent pending!

LeafBlaster gutter protection system brings gutter guard technology to a whole new level. It's made from a 316 surgical stainless steel mesh filter and a hardened aluminum extruded drip edge to fasten easily to the front lip of any gutter and installs on any roof type.

LeafBlaster's unique design makes it low cost because it doesn't need a metal support frame to hold it up. It uses a series of corrugated "V" bends to create its unusually strong support structure.
